Executive Director

NOTE FOR: DDA

*Full:*

Recently an audit report dated 9 May 1986 on CIARDS was brought to my attention. Mention was made of the fact that improvements are needed in CIARDS cash management practices. Even more significant, from my perspective, is the concern expressed about getting ready to take over management of all future retirement programs. Sometime in the next month I would like to hear more about the state of our planning for this important new responsibility.

Danny Childs tells me there are signs in the budget that we are going to take similar steps in other areas like Workmen's Compensation. Probably it would be prudent to talk about everything you have underway in this area.
